Professional Summary

Experienced and motivated microbiologist/biochemist seeks a challenging and rewarding position where her unique skills in protein chemistry and microbial physiology can be used to help solve current challenges in biomedical and biotechnology fields.

Education:

- | | |
|--|-----------|
| University of Florida; Gainesville, FL, USA | 1996-2001 |
| ▪ Ph.D. Microbiology and Cell Science, 2001 | |
| Clearwater Christian College; Clearwater, FL, USA | 1992-1996 |
| ▪ B.S. Biology, 1996 <i>summa cum laude</i> | |

Professional Experience:

- | | |
|--|--------------|
| Five Rivers Language and Culture Center
Chengdu, Sichuan, PRC | 2012-present |
|--|--------------|

Vice General Manager of Adult Education

Key Contributions:

- Developed and implemented curriculum for language and culture training (in Mandarin and English)
- Trained teachers in new education methods for effective cultural acquisition.
- Maintained relations with clients, including International schools (eg. Leman International School) and the U.S. Consulate General in Chengdu.

- | | |
|---|-----------|
| Guangya International Baccalaureate School
Chengdu, Sichuan, PRC | 2009-2011 |
|---|-----------|

Visiting Professor of Biology

Key Contributions:

- Developed and implemented International Baccalaureate Biology curriculum for Grades 10-12
- Served on a Disaster Relief team in the wake of the Great Sichuan Earthquake of 2008
- Assisted in assembly and testing of water purification machines to be used in Disaster areas

- | | |
|--|-----------|
| Duke University Department of Biochemistry
Durham, NC | 2002-2008 |
|--|-----------|

Research Associate

Key Contributions:

- Contributed to an understanding of the enzyme mechanism and electron transfer pathway in the human protein sulfite oxidase, a protein essential for human sulfite metabolism
 - Cloned and purified multiple proteins including mutant proteins implicated in Human Sulfite Oxidase Deficiency disease.
 - Designed and optimized stopped flow and other kinetic assays of the human sulfite oxidase protein and mutant variants generated via site-directed mutagenesis.
-

- Gained substantial experience in analyzing data obtained from specialized analytical techniques, including MALDI-TOF, LC/MS, EXAFS, EPR, flash photolysis, and X-ray crystallography
- Supervised and mentored graduate students in the laboratory and classroom settings
- Directly contributed to the publication of 11 research articles in major peer-reviewed journals
- Presented research at several international meetings, including invited lectures at conferences at Oxford University and the University of Florida

**University of Florida Department of Microbiology and Cell Science
Gainesville, FL**

1997-2001

Graduate Research Assistant

Key Contributions:

- Identified and characterized multiple proteasomes and proteasome-activating nucleotidases in the haloarchaeon *Haloferax volcanii*, leading to a better understanding of the human proteolytic/proteasome system.
- Developed methods for isolating genes and purifying proteins from challenging systems including hyperthermophilic strict anaerobes including the methanococci *Methanococcus maripaludis* and *Methanococcus jannaschii*
- Lectured in undergraduate and graduate-level microbiology courses; mentored undergraduate researchers in the NIH Research Apprenticeship Program
- Published a book chapter and several research articles in major peer-reviewed journals
- Presented research at several international conferences and meetings, including ASM, FASEB and Gordon Research Conferences

Research Experience and Techniques:

- **Molecular Biology**- cloning eukaryotic and archaeal genes, PCR, RT-PCR, site-directed mutagenesis, genomic library creation, Southern blot analysis
- **Biochemistry**- recombinant protein expression, purification of tagged and untagged constructs, HPLC/FPLC, anion exchange chromatography, gel filtration chromatography, hydrophobic interaction chromatography, native and SDS-reducing PAGE, immunoblot analysis, enzymological assays, steady-state and stopped-flow kinetic analysis
- **Cell Culture**- maintenance of bacterial cell lines, strict anaerobic microbiological growth
- **Spectroscopic Analysis**- UV/vis, circular dichroism, stopped-flow kinetic analysis, atomic absorption spectroscopy, fluorescence spectroscopy

Other Skills and Achievements:

- Significant Cross-Cultural Experience (residing in China 2008-2013)
- Proficiency in Mandarin Chinese and in developing curriculum for language training (in English and Mandarin)
- Preparing Future Faculty Program Fellow-Duke University (2003-2004)
- Sigma Xi-The Scientific Research Society (2001-present)
- American Society for Microbiology-Student Travel Grant Award-(1998)
- American Society for Microbiology Southeastern Branch President's Award for Outstanding Graduate Research Presentation-(1998)
- Florida Academic Scholar Undergraduate Award (1992-1996)

Date: 28th January 2011

To whom it may concern,

Re: Mark Higgins

The following is to serve as confirmation for the 125 hour online TEFL course that Mark has successfully completed and passed with i-to-i.

The 125 hour course which Mark completed included the following specialty courses:

- 60 Hour Online TEFL Course
- 20 Hour Grammar Awareness Course
- 20 Hour Video Practice Course
- 5 Hour Teaching to Young Learners
- 5 Hour Teaching English One-to-One
- 5 Hour Teaching Large Classes
- 5 Hour Teaching with Limited Resources
- 5 Hour Teaching Business English

Mark completed the TEFL course on the 7th December 2010 for which he received a qualification recognized by the Open and Distance Learning Quality Council.

Please don't hesitate to contact i-to-i TEFL team, if you require any information regarding the course.

Yours faithfully,

Kristin Scales
